The Baap Company

Student Admission / invitations App

I A "Student Admission App" streamlines the application process, allowing students to apply, submit documents, track application status, and receive notifications all in one platform. It simplifies administration for educational institutions by managing applications, reviewing submissions, and communicating with applicants efficiently..

The Baap Company

SalesMan-App:

A salesman app is a mobile application tailored for sales professionals to manage their sales activities efficiently. The app typically includes features for tracking leads, managing orders, and running campaigns.

The Baap Company

Hostel Management-App

A hostel management app is a digital platform designed to streamline the operations of hostels. It typically includes features for managing room allocations, bookings, payments, and student records. The app can also handle inventory management, staff coordination, maintenance requests, and provide communication channels for students and hostel administration. This ensures efficient day-to-day operations, reduces manual work, and enhances the overall management experience for both hostel staff and residents.
